Professional Summary

Motivated and detail-oriented Junior Frontend Developer with a strong foundation in HTML5, CSS3, and JavaScript. Currently pursuing a DAE in Information Technology, with hands-on experience in building responsive web pages, UI layout design, and interactive web elements. Proven track record of strong communication, reliability, and problem-solving skills gained from experience in customer service and inventory management. Eager to leverage technical skills and passion for web development to contribute to entry-level frontend projects.

Work Experience

Front-End Developer / Freelancer

- Created and customized clean web components and templates based on project specifications.
- Optimized site elements and formatting to improve usability and visual structure for client projects.
- Managed codebases using Git for version control and efficient project delivery.
